

timeSWITCH 160 digital plug-in timer

The timeSWITCH 160 is a digital control that plugs discreetly into the boiler fascia without any requirement for cable harnesses.

This timer has a simple interface that makes it easy to set heating and hot water time programs. Three heating and hot water programs can be set for each 24 hour period and can be individualised for up to seven days. The quick mode selector can override these programs for instant heat and hot water without making any changes to the settings. You can also select the holiday function from the menu so that the building isn't heated unnecessarily when unoccupied, but ready for when residents return.

Appliance service, fault, and maintenance indicators are easy to read on the clear, blue backlit display, which offers outstanding contrast and low energy consumption.

When used with a VR 66/2 wiring centre, the timeSWITCH 160 can control either an S or a Y plan system. It's compatible with the full range of Vaillant combi, system and open vent boilers.

Note: These controls do not comply with Boiler Plus.

Proudly supporting installers

Key features and benefits

- **Simple menu layout**
Easy to set heating and hot water time programs
- **Flexible time programs**
Three heating and three hot water time periods can be set for each week or 24 hour period
- **Quick mode selection**
Quick mode selection easily overrides heating and hot water schedules without making any changes to set programs
- **Service, maintenance and fault indicator**
Appliance service, fault, and maintenance indication is displayed on the screen

- **Clear, high contrast backlit display**
Blue backlit display uses proven technology to offer outstanding contrast and low energy use
- **Automatic daylight saving**
Automatically adjusts to British summer/winter time
- **Holiday function**
Holiday mode ensures heating is off whilst you're away and ready for your return
- **Discreet plug-in timer**
Plugs directly into the fascia of the Vaillant boiler without the need for any cable harnesses

Technical data	Unit of measure	timeSWITCH 160
Article number		0020124498
Height	mm	97
Width	mm	147
Depth	mm	50
Rated voltage	V	eBUS 24 (plug in)
Level of protection		IP20
